

Trade Agreement Between U.S., Canada and Great Britain Signed

Canada Loses Much Preference--Gains on Exports to the United States

Canada, the United States and Great Britain, for the trade agreements signed last week at Washington, reduce tariffs on more than 20,000 products, involving between \$1,500,000,000 and \$75,000,000,000 in trade.

While the pact does not include the other dominions or self-governing British states, the trade with each other and with the rest of the world of the areas which are included, involves more than one-third of the world's total international trade. The United States carries on one-third of its own total trade with the areas covered in these two agreements.

U.S. Farmers Aided

Principal considerations granted the United States by the United Kingdom are as agricultural products, chief of which is the removal of a 60-cent a bushel duty on wheat; to the lower grade on manufactured goods, in which the duties were reduced, and in which the duties were reduced to one-third of the United States tariff on one-third of its own total trade with the areas covered in these two agreements.

Special Session of Alberta Legislature

Oil and Gas Conservation--Temporary Amendment To Debt Adjustment Act

Unanimous consent of the House to suspend rules of the assembly was given at the request of the speaker of the House that the House should meet on Tuesday at 10 o'clock, in order to allow the minister of mines and lands to introduce the new Oil and Gas Conservation bill, main purpose of the assembly.

The bill provides for the conservation of oil and gas in Alberta, will be placed in the hands of the provincial government's three main board under the terms of the Act.

The bill permits appeal to the court of the Supreme Court of Alberta against the board's recommendations on operators for revenue purposes. It also provides for the regulation of the oil and gas industry in Alberta, will be placed in the hands of the provincial government's three main board under the terms of the Act.

Redistribution Committee is Established

Report Will Be Presented At Next Legislative Session

The Alberta legislature Thursday last named a committee of seven under chairmanship of Hon. James Macdonald, minister of municipal affairs, to study the question of electoral constituencies and report to the 1939 session of the legislature.

Appointment of the committee, on motion of Hon. W. A. Fallow, minister of public works, was carried without a division after an amendment moved by A. E. MacLellan, S.C. Islander, was defeated on division, 42-18.

Mr. MacLellan's amendment would have reduced the membership of the house to a maximum of 34 and a minimum of 32, compared with the present 48 members.

Appointed to the committee along with Mr. Macdonald are Wm. Tynan, S.C. Wilfrid, B. E. Anderson, S.C. Leslie; H. E. Loger, S.C. Drumblair; Wm. Sharpe, S.C. Grande Prairie; Gerald O'Connor, Liberal, Edmonton; and M. Duggan, Conservative leader.

The committee will consider changes in electoral constituencies in view of population changes, and that the House membership as a result of any redistribution that may be decided upon, shall not be less than 34 members, or more than 48.

The committee also was instructed to consider the present method of reapportioning seats in the House of the cities and single transferable vote in single member ridings--and recommend any changes deemed desirable.

Obituary

LAWRENCE PERGIVAL SNYDER

The death of Lawrence Percival Snyder, 53 years of age, occurred at Drumheller hospital on Monday, November 14th.

Deceased, who was 54 years and 4 months old, was born in Tarnam County, Ontario. On coming west, he was employed as a farm hand, but was obliged to relinquish that occupation on account of drought. Settling down in Delia, he has lived exclusively in the building years, he engaged in the building and contracting work.

He was married in his late years to his wife, Mrs. Snyder, who bore him three daughters, Sarah, Joan, and Dorothy; and two sons, Leroy, and George Edward.

Funeral services will be held in Delia United Church on Wednesday, November 16th, at 2 p.m. Rev. Stan S. Clarke officiating.

Mr. Snyder's family resided in Delia, and he was a member of the Delia United Church. He was a member of the Delia United Church.

Wedding Bells

MEADVILLE--MARSHALL

A pretty wedding was consummated in the Holy Trinity Church at Delia on Wednesday, November 16th, at 9:30 a.m., when Miss Frances, eldest daughter of Mr. and Mrs. John Marshall, became the bride of Mr. Thomas P. McNeill, only son of Mr. and Mrs. McNeill, of Calgary. The altar was decorated with white carnations, and the bride wore a white gown, and the groom wore a white suit.

Proceeding by his little sister, Josephine Marshall, a flower girl, and his little cousin, John Marshall, as ring bearer, the bride carried a bunch of pink carnations, entered the church on the arm of her father from Lohrville, played by Mrs. J. McNeill. She looked charming in a gown of ivory silk, with long sleeves, and a long train.

A lovely nuptial veil--longer length--was caught to the bride's head with a coronet of orange blossoms, and a long train of white lace.

The bride was escorted by her father, and the groom by his mother. The ceremony was performed by Rev. J. McNeill, and the wedding was a most beautiful one.

The bride and groom were accompanied by their families and friends. The reception was held at the home of the bride's parents, and the wedding was a most beautiful one.

Winter Reminders

For The Bee Yard

Experimental Farm Weekly Letter All colonies of bees are fed in winter packing for their period of rest provided at the Experimental Station here. The honey flow from last season was good this year, and the bees have been working as well during plenty of food stored, many hives have been placed in the ground, and many more have been placed in the ground, and many more have been placed in the ground.

One of the best ways of wintering colonies is to place them in the ground, and many more have been placed in the ground, and many more have been placed in the ground.
